Flowers Perfect to Plant in June

Marigolds, Zinnias and Sunflowers are good to plant now. They usually burn out by late summer, but if planted now will last past Labor Day, offering up a rainbow of late-season blooms.

Note* Obion and Weakley County gardening zone is 7A.

Make Your Own Mole Repellent

You will need:

Bottle of castor oil

Dawn dish soap

Big plastic container with a lid (3 quart was recommended)

Tablespoon

Kettle of hot water (or warm).

First: Pour all of the castor oil in the container and fill with water

Next: Add 2 tablespoons of Dawn and shake it up (add water before Dawn)

Last: After it cools, put in a spray pump.

Spray in areas where you see them or their tunnels. You can even pour a little in the holes. You can reapply after a week. After 2 applications they should be gone.

*Recommended for early spring.

* Note

If you have not signed and turned in the letter I mailed out with the Schedule of Resident Charges please do so.
